Output:

Topic	Description
Program	A set of Instructions that you give to computer so that it will do a particular task
Algorithm	A step by step procedure used to solve a problem is called algorithm
Flowchart	<i>A flowchart is a type of diagrams gives visually explanation of workflow</i>
Compiler	<u>A translates code written in high level programming language into a lower level language</u>
Interpreter	An interpreter is a program that translates and executes source code one statement at a time
Chemical formula of Water	H ₂ O
Area of Circle	π^2
